

We Carry to the Future

Since 1973, as an "integrated logistics service provider," Borusan Logistics has been a leader in its sector, offering domestic and international logistics services and supply chain solutions.

Today, with over 4,000 employees and more than 100 facilities and locations, Borusan Logistics proudly celebrates its 50th anniversary, confidently moving forward.

As part of its Domestic Contract Logistics services, Borusan Logistics provides warehousing services across 470,000 m² of storage and 17,000 m² of bonded warehouse space. With 26 transfer centers and daily distribution capacity to 8,000 points, the company offers partial transportation and special distribution services in all 81

provinces, along with auto transportation, vehicle storage, pre-delivery inspection (PDI) services, and port management services. By the end of 2024, Borusan Logistics will operate 32 warehouses throughout Turkey, with a total of 470,000 m² of open and closed storage space and 17,000 m² of bonded warehouse area.

In addition to its own warehouses, Borusan Logistics also provides warehousing services at customer facilities. In the field of international logistics services, Borusan Logistics operates as a provider of road, rail, air, sea, and intermodal/multimodal transportation services. The company delivers road transportation to over 50 countries, air transportation to more than 275 locations across approximately 120 countries, and sea transportation to 1,125 container ports.

In this regard, Borusan Lojistik has become one of Turkey's first companies to hold the "Green Logistics" certification.

Borusan Logistics allocates 52% of its investment to IT and R&D projects, transforming its infrastructure. Borusan Logistics designs its processes with the goal of being th

At Borusan Lojistik, we offer a full spectrum of logistics services designed to meet the evolving needs of modern supply chains.

Our logistics services include:
3PL solutions, domestic road transport, warehousing, automotive logistics, domestic distribution, e-commerce solutions, international transport via road, air, sea and intermodal.

Europe's Smartest Digital Logistics Platform

One Platform. Total Control.

Manage all your shipments, tenders, and contracts across road, sea, air, and intermodal transport from a single, intuitive dashboard. Our **Spot Customer Portal** provides real-time tracking of your orders, while our **Supplier Mobile Application** ensures easy, on-the-go coordination with suppliers. Enjoy full operational visibility with instant notifications and effortless sharing of shipment details with your partners—bringing peace of mind at every step.

AI-Powered Efficiency & Smart Matching

Leverage our artificial intelligence capabilities for dynamic and optimized pricing, receiving optimal route suggestions and transport modes. Our smart matching algorithms reduce empty runs and enhance efficiency, cutting costs and minimizing environmental impact. Sustainability is core to our services, with integrated carbon emission analytics that help you monitor and reduce your logistics footprint.

Fully Digital, Seamless Operations

Experience paperless logistics with digital uploading of delivery documents and streamlined workflows. Payments are processed immediately upon delivery confirmation thanks to our digitalized supplier payment process. Manage bids, accept jobs, and stay connected anytime, anywhere via our mobile app—logistics at your fingertips. Additionally, our digitalized customer invoicing and reconciliation processes automate financial tasks, boosting efficiency and accuracy.

Comprehensive Services Across the Globe

Domestically, Borusan Logistics operates 570,000 m² of storage and customs clearance facilities, 26 transfer centers, and provides daily distribution to over 6,000 locations. We support partial shipments, dedicated distribution, vehicle transportation, stock management, and pre-delivery inspections integrated with e-commerce platforms. Internationally, we serve 147 countries via road, rail, air, and sea, offering end-to-end intermodal solutions tailored to your needs.

Trusted. Transparent. Data-Driven.

Borusan Logistics' digital ecosystem simplifies logistics for shippers and carriers alike. Powered by AI and driven by sustainability, this is the future of freight: smarter logistics, real-time visibility, and seamless operations—all in one place.

For Shippers

- AI-powered pricing and route suggestions
- Full multimodal integration
- Real-time cargo tracking via Spot Customer Portal
- Digital contract and document management
- Carbon emission analytics
- End-to-end operational visibility

For Carriers

- Access load opportunities matching your route
- Manage bids and jobs on mobile via Supplier Mobile Application
- Instant payment after delivery through digitalized payment processes
- Smart tools to reduce empty runs
- Performance-based rewards
- Integrated document uploads

Financial Strength & Vision for the Future

In 2024, Borusan Logistics increased its sales by 18% in USD terms, achieving growth in volume and operational profitability. Our focus remains on sustainable growth through customer-centric, technology-enabled, and efficient operations. Looking ahead to 2030, we are committed to advancing sustainability goals and strengthening collaborations with all stakeholders.
